11/21/19 PRAMS STEAM NIGHT

Please join us for our annual STEAM *Science Technology Engineering Art and Math* night!

Our Visual and Performing Arts department has a wonderful showcase prepared for you. Immediately following there will be an informational session before all the activities begin on how to help your child in (K-2) or (3-8) at home with the topics they are learning at school. Following this brief session, families and students will visit classrooms where different hands on family STEAM challenges and activities will be held. Visit the cafetorium with ExxonMobile.

Cool Math Games!
